VICTIM IMPACT STATEMENT

Email from a VOFF member to Don on Guernsey who is enquiring into the Exploration Fund missing monies.

“Good afternoon Don,

I was given your email address by John Telford of VOFF. Thank you for working on behalf of all those in Australia who had their superannuation stolen by Jack Flader and his cohorts through ARP Growth Fund and others. VOFF has worked tirelessly for us all and it is so encouraging to hear that you are making enquiry into Mr Meerveld and his activities in Guernsey.

My husband and I lost all of our combined superannuation through ARP Growth Fund.

We were the last to invest in the ARP Growth Fund. Col, my husband, now 74, had a series of strokes brought on by the stress of the theft and has been unable to work since. I am working from home, I have to, in order to care for Col too. I am 56 years old and will be working for the rest of my life.

We invested our superannuation money so that we could be financially independent in retirement and not be a burden on the Australian government but the Australian government failed to protect us, there was no safety net. I am incredibly disappointed that the Australian government and its agencies have made no effort to trace the money which was moved offshore and ‘disappeared’.

I feel so grateful that you are following up on Mr Meerveld, further investigation into him and his association with Jack Flader is absolutely warranted. Hoping that you have some luck with your enquiries. Huge thanks.”
