VICTIM IMPACT STATEMENT

From Russell & Kathleen

My wife & I have recently declared bankruptcy due to a horrific chain of events, which was triggered by the Trio fraud. We not only lost our superannuation, but we had to sell our home & received only a fifth of what it was worth, less the usual expenses. We were very fortunate to find a lovely house to rent & hope to be able to stay here as long as we can afford to.

Betrayal is a constant feeling every time we read or hear in the media about political corruption & corporate greed, it sickens us.

The so-called GATEKEEPERS : ASIC, APRA, ATO & FEDERAL POLICE, have let these criminals into the country & then refused to track them down. Even the Freedom of Information requests our organisation V.O.F.F have submitted (450+ & counting), must be some sort of a joke to these Bureaucrats who can find so many reasons why they constantly refuse them. (How do they sleep at night).

Kathleen & I have been workers & tax payers all our working life & rather foolishly believed our government leaders to be honest, with the people's interests at heart. (Another sad joke)
